

## Library

The library in a college campus is a specialized facility designed to support academic and research activities in pharmaceutical sciences. It typically offers a comprehensive collection of books, journals, electronic databases, and other resources specifically curated to meet the educational and research needs of pharmacy students and faculty.

Key features of a pharmacy college library include:

- 1. Specialized Collections:** Holdings include textbooks, reference materials, research journals (such as pharmaceutical chemistry, pharmacology, pharmacokinetics), drug databases, and regulatory guidelines.
- 2. Study Spaces:** Provides quiet areas for individual study, group study rooms, and collaborative spaces equipped with relevant technology to facilitate research and learning.
- 3. Access to Online Resources:** Subscription to electronic databases, e-journals, and e-books that provide access to the latest research findings, drug information, clinical trials, and pharmaceutical industry news.
- 4. Integration with Curriculum:** Collaborates with faculty to ensure that library resources and services align with the curriculum, supporting coursework, assignments, and research projects.

In conclusion, the library in a pharmacy college campus plays a critical role in supporting education, research, and professional development within the field of pharmacy, providing essential resources and services tailored to the specific needs of students and faculty.

Sr. No.	Particulars	Details
1	Total No. of Books	6501 (Title : 2745)
2	Book Bank Facility	250
3	Journals	National - 07 International -05
4	Total Issue Book	1020
5	Total Issue Book	More than 8%
6	Digital Library Facility (Multi Media PC with Internet Surfing)	Available
7	Total Book Amount	3896163
8	Total Journals Amount	31900
