A Report on Plantation

Conducted at Shivajirao S Jondhle College of Pharamacy Asangaon on 21-03-2022

Description of the Event: A very auspicious Tree plantation Program was organized in our college to create awareness regarding Climate changes and its adverse effect on us. National Service Scheme (NSS) Faculty and Staff had participated in the plantation programme. The Program started on 10.30 am. The guest of honor for this plantation programme was the President of our college Shivajirao S Jondhle sir. 200 plants were planted in college herbal garden to create an awareness about saving trees. Since the beginning, trees have furnished us with two of life's essentials. food and oxygen. As we evolved, they provided additional necessities such as shelter, medicine, and tools. Today, their value continues to increase and more benefits of trees are being discovered as their role expands to satisfy the needs created by our modern lifestyles. Trees contribute to their environment by providing oxygen, Improving air quality, climate amelioration, conserving water, preserving soil and supporting wildlife.

Trees control climate by moderating the effects of sun, rain and wind. They also lower the air temperature and reduce the heat intensity of the greenhouse effect by maintaining low levels of carbon dioxide.

"Save the trees, Save the Earth. We are the guardians of nature's birth"
